

QUALITY CONTROL

During all production phases (from the acceptance of raw materials to the shipment of the product), processes are checked by means of continuous inspections or by using various instruments, with the objective of supplying a product which conforms to customer specifications and expectations:

- Product check
- Quantity check
- Finishing check
- Quality check

Checked by

QUALITY GUARANTEE

All original Willy spare parts meet the strictest national and international quality standards.

That is why we give 1 year warranty on all our products.
